

Teboil Form Oil E

Teboil Form Oil E is concrete form oil.

Applications

Teboil Form Oil E is concrete form oil, which helps the form to detach from concrete. It can be used with all conventional form materials like steel, wood and hardboard. It protects steel form from corrosion and is suitable for year around use.

Performance features and benefits

Form Oil concurs with wet concretes calcium oxide and creates a thin protecting film between concrete and form. The film is very thin, approximately 0,03-0,05 mm thick insulating film. Optimal oil consumption is 1L/10-15 m².

Typical physical characteristics

Teboil Form Oil E		Unit	Method
Density @ 20 °C	842	kg/m ³	ASTM D 4052
Viscosity @ 40 °C	8	mm ² /s	ASTM D 445
Flash point	75	°C	ASTM D 92
Pour point	-48	°C	ASTM D 97
